

Directions to the Rob & Bessie Welder Wildlife Foundation

Take Hwy 77 N. from Sinton towards Woodsboro and Victoria. Approximately 8 miles north of Sinton you will encounter a brown highway sign announcing the Rob & Bessie Welder Wildlife Foundation.

Exit to the right immediately following the sign and you will see the Foundation's gate house (white stucco with red tile roof) located on the east side of the highway.

If you cross the Aransas River Bridge you have traveled approximately 1.5 miles passed the gate.

The Foundation's Headquarters is located 2 miles from the main gate at the highway. Stay on the paved road without exiting until you cross a cattle guard. After you have crossed the cattle guard, you will see a sign directing you to the Headquarters.
